## ABOUT MALLORCA AND ITS CAPITAL PALMA

With its astonishing landscape, beautiful beaches and historically fascinating cities, Mallorca offers a wide variety of activities to its visitors. Palma de Mallorca is the capital, but also cultural and commercial center of the island. We recommend getting to know the city and its history – which can be traced back to before Roman times – but also escaping the city and exploring the island's natural landscape. A guided tour through Palma is offered for accompanying persons and children on Monday, 1 October (see Tour 1).

### **La Seu – The Cathedral of Santa Maria of Palma**

The famous Gothic Roman Catholic cathedral, which is located within the old city of Palma de Mallorca is one of the main tourist attractions of the city. The cathedral was built between the 13th and the 16/17th century and refurbished in the 19th century. Furthermore, the famous Spanish architect Antoni Gaudí made some contributions in the 20th century in order to restore the cathedral's gothic style. As one of the most valuable gothic-style buildings in Spain, the cathedral is definitely worth a visit.

### **The Royal Palace of La Almudaina**

After having appreciated the unique characteristics of the gothic-style Cathedral of Santa Maria of Palma, we recommend visiting the Royal Palace of La Almudaina, which is located right next to the cathedral. The palace was built as an Arabic fort and serves now as the official residence of the Royal Family.

The rooms in the ancient building are open for history-lovers and an app – with information for visitors – will complete your visit to the Royal Palace.

### **Palma Aquarium**

The Palma Aquarium is known for its wide variety of underwater wildlife. It is home to approximately 8.000 underwater animals of 700 different species. One of the main attractions is the daily shark feeding. We recommend a visit to the Palma Aquarium not only to families and children, but also for everyone else, who wants to dive into the spectacular world of the maritime ecosystem.

### **Bellver Castle**

The Bellver Castle is a gothic castle, located 112 meters above sea level, around 3 kilometers / 2 miles west of the center of Palma de Mallorca. The castle is famous for its unique circular shape. It was built in the 14th century as royal residence, however, became a military prison in the 18th century. Today Bellver Castle is home to the Palma History Museum and the Despuig Collection of Classical Sculpture. It hosts a large number of tourists, who are interested in the island's fascinating history. Guided castle tours are offered.

In case you already have enough of history with Palma's large variety of historical buildings and cultural sights, we recommend going to the Es Baluard – the Museum of Modern and Contemporary Art. Opened in 2004, the museum offers a collection of over 600 art works of modern and contemporary artists.

## ABOUT SÓLLER

A trip to the small city of Sóller is planned on Wednesday, 4 October (see Tour 8) for accompanying persons and children. Sóller is located around 34 kilometers / 21 miles north of Palma de Mallorca and is known as one of the most beautiful cities of the island. It is a traditional small city which is famous among hikers, Nordic-walkers, cyclers, and everyone else who enjoys being in the nature due to its location close to the mountain range Serra de Tramuntana and its beautiful landscape.

### **Serra de Tramuntana: Tramuntana Mountains**

The mountain range Serra de Tramuntana was given World Heritage Status by UNESCO in 2011 as a place of importance to cultural or natural heritage. The Puig Major – as part of the Serra de Tramuntana – is with 1.445 meters the highest peak of the island.

### **Port de Sóller**

When exploring the beautiful landscape of Serra de Tramuntana one should take the island's historic tram from the city center of Sóller to the nearby village Port de Sóller. Surrounded by orange, lime, and olive trees, the small village impresses its visitors especially due to its beautiful bay and romantic port.

## ABOUT ALCÚDIA

The historic city of Alcúdia can easily be reached by bus (bus line 351) in merely 1 hour and is thus recommendable for a day trip. The city offers historic architecture, famous churches, and panoramic paths along the historic city wall, as well as beautiful small streets, which invite the visitors to stroll around.

### **Alcúdia market**

We recommend visiting the Alcúdia market, which opens every Tuesday and Sunday morning and is one of the oldest and biggest markets on the island. Enjoy traditional, locally-produced snacks, drink a glass of wine with one of the local farmers or shop souvenirs for your beloved ones.

### **Alcúdia's water park: Hidropark**

Especially for families with children, a nice alternative to visiting the historic buildings in the city is the city's waterpark. Let your children discover the fun slides and activities the Alcúdia Waterpark has to offer. Next to pools and slides, also mini-golf and relaxing areas are available in the park.

## ABOUT MANACOR

The city Manacor, which can be reached by bus or train in around 1 hour from Palma (bus line 412, train line T3) can be described as a typical Majorcan city. It is especially well-known among tennis-fans as it is the birth place of the famous tennis player Rafael Nadal. Apart from that, the city is famous for its high-quality wooden furniture manufacture, as well as artificial pearls manufacture. Several factories in the city invite visitors into their premises and guide them through the whole process of pearl manufacture. At the end of the tour, participants have the possibility to purchase jewelry, made on these very same premises. What is more, wine-lovers are invited to take a short trip to one of the many vineyards close to the city center for wine tasting tours.

### Caves of Drach

An organized tour to the Caves of Drach is offered for accompanying persons and children on Tuesday, 2 October (see Tour 4). The famous Caves of Drach are located in the same municipality of Manacor, around 20 minutes east from the city center. They can easily be reached by bus (bus line 412) or by car. The caves are one of the main attractions for visitors of the island. They contain a large underground lake Lago Martel, which is among the largest underground lakes worldwide. Tickets can be purchased online or at the local ticket office. It is recommended to have a look at the opening hours as the tours into the caves start at specific times.

## ABOUT VALLEDEMOSSA

A trip to the beautiful city of Valldemossa is planned for accompanying persons and children on Wednesday, 3 October (see Tour 6). The small town is not only famous due to the beauty of its surrounding landscape in an idyllic valley within the mountains of Serra de Tramuntana, but also due to the fact that the famous Polish composer Frédéric Chopin and his lover French writer George Sand spent some time there over the winter of 1838/39. As a result, Sand wrote her book 'A winter in Mallorca'. What is more, Valldemossa is also known for being the birth town of Mallorca's patron saint Catalina Thomas.

### **Real Cartuja de Valldemossa – Valldemossa Charterhouse**

One of the main attractions in the quiet city of Valldemossa is the 14th-century Carthusian monastery. The monastery is a museum today, consisting of the old monastery pharmacy, a church and small mini-museums (with works from Picasso and Miró). This monastery was also Chopin's and Sand's residence in the winter of 1838/39. Music-lovers will thus find Chopin's piano in the room the couple stayed in, which is still in its original state.
